NEVER EVER GIVE UP

we love

WE'RE LOOKING FORWARD TO WORKING WITH YOU

Welcome to NEGU and thank you for considering us for your child's development. Our ethos here at NEGU is to build resilience, confidence and respect, pushing our students learning capabilities by creating a positive learning environment and Never Ever Giving Up! We look forward to having a positive impact on your child's educational journey.

ABOUT US

Here at NEGU we believe that, as teachers, we need to be more creative in our delivery to make learning engaging and fun. We have extremely high success rates in re-engaging young people in education and helping them to aim higher and achieve to their full potential.

Many of our tutors are currently or have been former teachers. In the past year we have worked on numerous different, unique cases of learners struggling to integrate into mainstream school as well as struggling to maintain their educational programme during the Covid-19 pandemic. Our tutors also have an excellent track record of bridging attainment gaps and supporting children in achieving their target exam grades and reaching their full potential.

We aim to connect with our learners and their passions in life, using that to deliver a learning experience completely individual to them. Whether that be gaming, LEGO, gardening, a certain book or TV programme, we focus on getting to know the student and use their interests as a platform to build their education journey on.

“

You will not find a more supportive, compassionate and caring tuition company like NEGU Tuition. Amy and her team have been such a rock for my son (and myself). My son was having a real tough time at school (prior to covid) trying to deal with managing his Autism and helping him with his education, confidence and social communication difficulties. At school my son seemed to be falling more and more behind because he had hardly any support. But, once he began tuition with NEGU and with all their help, he has amazingly turned this around and his confidence, understanding and knowledge has shone. We are so happy and have continued to carry on with NEGU Tuition even after the schools returned. The support and feedback parents receive, as well as the children is fantastic too - we can't thank Amy and her team enough x

Get to know us

WHO IS NEGU AIMED AT?

Anyone that wants to learn! Whilst a majority of our students are of school age, we also provide a variety of services to adults that includes tutoring, assignment proofreading and counselling sessions.

We are also experienced in working with students of all backgrounds and needs. This includes children with learning difficulties as well as home schooled children.

HOW DO YOU SELECT YOUR TUTORS?

All of our tutors are passionate about what they do. They thrive on providing an engaging learning experience that will allow children to build confidence, resilience and respect. Our tutors undergo an extensive identity and safeguarding checks upon recruitment and hold an Enhanced DBS certificate as well as the right skills and expertise to be a NEGU tutor (our standards are pretty high!).

DOES NEGU ALIGN WITH THE CURRICULUM AND EXAMS?

Of course! We know the National Curriculum inside out and we can also tailor to the schools independent curriculum too if required.

We are also highly experienced with home education and can tailor to the individual needs of the child and family.

“

I couldn't recommend Amy enough. She's gone above and beyond for my family. Her caring nature has built a relationship with my son to enable him to learn the way he needs to. Teaching him, mistakes are there to be made and it's not a bad thing. My son has ASD, for Amy to make a connection and make my son proud of himself for what he's achieving is priceless.

HOW DO I KNOW IF IT'S HELPING MY CHILD?

During our initial assessment we create an Individual Learning Plan (ILP) which is reviewed every 6 weeks as part of our attainment tracking process. Progress Reports as well as Individual Lesson reports are also sent to parents/carers to keep you updated on your child's progress. The most important way for us to know if it is helping your child, is if they are enjoying our sessions and look forward to them each week. If they enjoy taking part and working with their tutor they will learn and progress much more.

WHAT ELSE IS INCLUDED?

As well as the tuition your child receives from one of our wonderful tutors, you will also receive the following:

- Access to our portal where you can view your child's lesson reports and appointment information
- A personalised Individual Learning Plan created at the beginning of your child's tutoring journey, highlighting their strengths and weaknesses
- Progress Reports created and shared every 6 weeks reflecting on the Individual Learning Plan, targets that were set and the progress made. These reports address attainment gaps but our tutors are flexible and can adjust some or all of a session to meet the immediate needs of a child

“

Amy is one of the most amazing persons I have met. I feel so lucky that I found Negutitions for my daughter. Amy has assigned a wonderful tutor, who exactly fits my daughter's needs. She enjoys working with her and just in few months my child has shown great progress. Apart from just tutoring Amy has been supporting me for my daughter's EHC Plan and has been guiding me through it. I couldn't have found anything better than Negutuition for my daughter. They are the best!!

OUR HONESTY POLICY

If we feel that your child is working to their full potential but may not have the ability to progress beyond a certain level we will tell you honestly and support you through any decisions you may make. However, we find that once started with NEGU, many clients will retain the private tuition beyond exams as the child gains so much confidence and resilience from the sessions and a positive impact, beyond excelling academically, can be clearly seen by parents and carers.

our services

PRIVATE TUITION

Face to face and online tuition covering core curriculum subjects for both Primary and Secondary education

GROUP TUITION

Small group face to face and online tuition covering core curriculum subjects and 11+ preparation

EHCP CONSULTANCY

Educational Health Care Plan Support services to help ensure reasonable provision is accessible for your child.
